

To the FDA:

RE: DOCKET NO. 98N-1265

I send this letter as a consumer of healthcare services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of the physicians and patients to obtain healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical needs. As a healthcare consumer, there should be no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or may travel. The MOU must be amended!

Signed: Laura A. Pruitt

State of Residence: Kentucky

Comments: If the above MOU is not amended, I will

not be able to get the hormones prescribed by my
physician. I cannot take the patented, noncompounded
hormones because of serious side effects. Please do not
limit the practice & interstate distribution of compounded drugs
